New Representation, New Products and a Great Future Ahead!

As one of the founding companies in the metal hose industry, UMH has been the #1 choice for strip wound inter-Locked & Square-locked tubing and custom corrugated hose assemblies since 1942.

UMH is growing! As a result we will introduce a series of new product offerings starting today!

Torque-Resistant

Smoothbore Interlocked

Metal Hose: This new product is designed to handle dry bulk conveying & unloading, especially for grain and pellet transfer applications. This product is available in either galvanized or stainless steel from 4" ID up to 6" ID and comes in 10', 25' and 50' lengths.

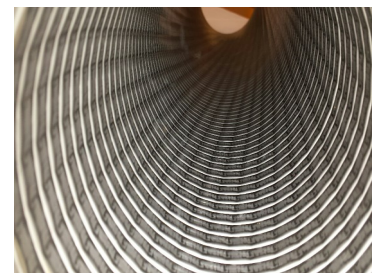

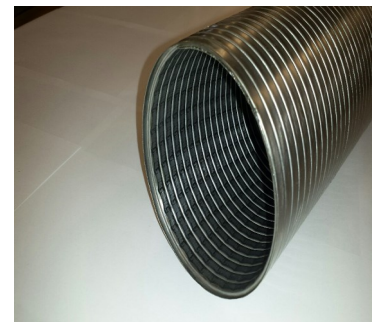

Please contact our factory or local representative for additional information:

products today!**

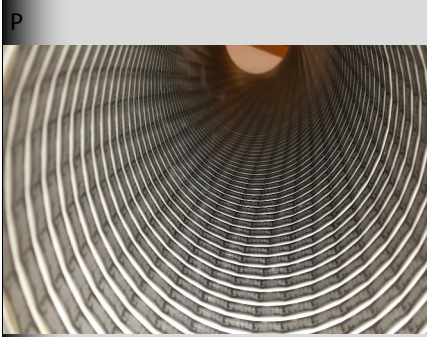

THE UMH ADVANTAGE—DID YOU KNOW?

Featured Product:

**UMH Torque Resistant
Smoothbore Interlock**

**Torque resistant interlock
provides improved hose sealing
and maximum protection
against twisting and unwinding
during the cutting process!**

TORQUE RESISTANT SMOOTH BORE
INTERLOCKED METAL HOSE

Bulletin #202A

STANDARD APPLICATIONS

***Vacuum**

Grain, bulk material handling, dust/particle, fume collection & hot ash

***Exhaust Applications**

Fume, dust, vehicle and on/ off road exhaust systems

***Conveying & Transfer**

Pellet, grain, wheat, dry bulk material

As one of the founding companies in the metal hose industry, UMH has been the #1 choice for galvanized and stainless steel interlocked metal hose since 1942!

Torque resistant interlocked metal hose provides increased sealing properties as well as maximum protection against hose twisting or unwinding during the cutting process. UMH Series TQ strip-wound flexible metal hose is available in galvanized steel, a variety of stainless steel grades and can be made from up to 3 different strip gauges (see below). Applications include grain distribution, vehicle exhaust, pellet/ dry bulk conveying and vacuum. Available sizes are 4", 5" and 6" ID's and standard lengths are 10ft., 25ft. and 50ft. long. Other lengths can be supplied, please contact the factory for more details. This strip-wound galvanized hose is rated for temperatures up to 750 degrees F and the Stainless version can handle up to 1000 degrees F.
