Introducing Stay-Put Long Lasting, Leak Free Flexible Metal Hose!

As one of the founding companies in the metal hose industry, UMH has been the #1 choice for strip wound interlocked and custom corrugated hose assemblies since 1942.

Cutting — Grinding — Turning —
Cleaning — Contouring!!!!

Whatever your application or product design requirement may be, Stay-Put flexible spring steel (leak free) hose is the #1 choice for OEM's and MRO suppliers nationwide.

Long Lasting Durability is the KEY!

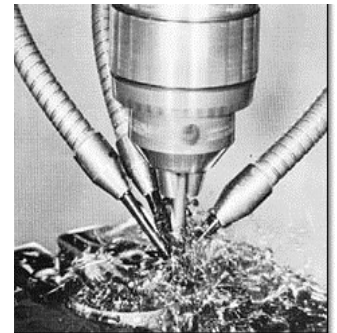

Manufactured from high-tensile strength spring steel, Stay-Put hose can be angled as desired to accurately direct the free flow of coolant, oil, water, etc. and has

proven to far outlast flexible hosing made from the less effective, less expensive plastic or rubber jacketing material also found in this market.

Sizes range from 1/8" - 3/4" diameter and are available in lengths from as short as 6" to 36" long. The standard style is with male fitting and nozzle (see photo), but several other styles can be accommodated.

Please see our "DID YOU KNOW?" section below to learn more about this product before the next time you purchase!

Don't wait—take the time to give our experienced sales staff a call and take advantage of our volume discounting!

THE UMH ADVANTAGE—DID YOU KNOW?
