As one of the founding companies in the metal hose industry, UMH has been the #1 choice for strip wound interlocked and custom corrugated hose assemblies since 1942.

The U.S. and Canadian grain handling and transfer market represents one of the largest customer bases for Universal Metal Hose products worldwide. Located in Illinois just off I-80 next to the Indiana border—UMH can deliver high quality flexible hose product quickly and at a very reasonable cost to any location throughout the central U.S. farming community.

Our interlock hose is available in galvanized or stainless steel, can be packed or un-packed and come in just about any diameter up to 16".

**Call now to check out our very competitive pricing!!**
