UMH-STOCKING UP FOR GRAIN TRANSFER & VACUUM SUPPORT!

As one of the founding companies in the metal hose industry, UMH has been the #1 choice for strip wound InterLok & SquareLok tubing and custom corrugated hose assemblies since 1942.

Over all those many years, the U.S. and Canadian grain handling markets represent two of our largest customer bases worldwide.

As a result of this years strong growth season UMH has started to build inventory of both galvanized and stainless steel hoses. Sizes we are concentrating on range from 2" through 6" ID's. Standard bulk hose lengths are 10', 25' & 50' long. There are no cut charges EVER for products purchased in these lengths.

UMH grain transfer hose can be cut (deburred & tack welded) to any length up to 50' long. In addition, Universal offers a variety of packing options — available for either galvanized or Stainless steel hoses.

Packing options include: cotton, synthetic fiber, silicone, 304SS & copper wire.

Our reliable, time proven products are in stock and ready to ship!

Don't wait—take the time to give our experienced sales staff a call to find out more about our high quality grain vacuum and transfer hose products now!

THE UMH ADVANTAGE—DID YOU KNOW?

Featured Product:

Grain Vacuum & Transfer Hose

For a small charge UMH will include painted product directional flow arrows to help cut back on product abrasion. Call the factory to inquire!
